Exhibit E Pricing Options

In addition to the Per User pricing plan option that allows unlimited access to subscription content as outlined in Exhibit A and Exhibit B, LexisNexis is pleased to provide other pricing plan options to better suit an agency's research needs.

Volume Bonus Plan = Pricing Plan option for those agencies that wish to pay a fixed rate for unlimited users and unlimited materials within the subscription. During the term, Subscriber will pay an annual fee for the term specified for access to materials specified. The annual fee is calculated based upon the size of the agency and its growth commitment not to exceed 10x the amount of its usage. Should the agency's use exceed the 10x level, its increase will be 5% or in line with its X factor; if its usage is less than the 10X level, then the annual price increase will be consistent with the escalation schedule. **This Pricing Plan will be used for All Law Enforcement Entities purchasing LESP.**

Pay-As-You-Go Plan = Pricing Plan option which allows an agency to pay the standard per search rate, which is determined based on the content that is researched on lexis.com. Hourly pricing option is available only via the LexisNexis Classic Software interface. (See Attachment 1 and 2)

Courtlink Pay-As-You-Go Plan = Instead of paying a monthly commitment for the Courtlink product, an agency may choose to use the pay-as-you-go option, paying for each filing per transaction. (See Attachment 3)
